CLIMATE CORPS

CLIMATE CORPS

THE PREMIER FELLOWSHIP PROGRAM FOR CLEAN ENERGY AND SUSTAINABILITY

Join *the* exclusive network of over one thousand energy and sustainability professionals, working to advance climate solutions in high-impact organizations around the world. Since 2008, EDF Climate Corps has placed over 800 fellows in leading organizations including Under Armour, NRG Energy, PepsiCo, City of Los Angeles and General Motors. As an EDF Climate Corps fellow, you will:

- be custom-matched with a host organization based on your location, industry and project type preferences;
- participate in an interactive in-person training and have access to ongoing professional development opportunities, webinars and a growing array of online resources.

edfclimatecorps.org

WHERE WE WORK

CREATING COMMITMENTS

Setting and achieving GHG goals that are based in science.

SCALING ENERGY EFFICIENCY

Advancing new technologies and financing options across building portfolios.

ACCELERATING RENEWABLE ENERGY

Uncovering and developing onsite and offsite opportunities.

EVALUATING SUPPLY CHAIN SUSTAINABILITY

Engaging suppliers with a focus on energy and emission reductions.

FELLOW SPOTLIGHT

FATOU JABBIE - 2014

As an EDF Climate Corps fellow, Fatou analyzed energy efficiency opportunities for one of Northrop Grumman's data centers. Fatou now runs her own consulting firm where she employs an integrated and systems-thinking approach helping architects, companies and government agencies build greener buildings, better integrate intelligent technologies and engineer network solutions.

AARON SCHREIBER-STAINTHORP - 2014

Aaron's EDF Climate Corps fellowship at Jackson Family Wines taught him the basics of waste water treatment and water use in winery production. He leveraged his experience to land a job at Francis Ford Coppola Winery and now has returned to Jackson Family Wines as a Sustainability Specialist.

BY THE NUMBERS

+400

The number of public and private organizations where we've placed fellows

\$1,250

The weekly stipend you'll receive over the 10-12 weeks of your fellowship

1 in 3

The number of Fortune 500 companies we've worked with

+1500

The number of energy and sustainability professionals in our network

80%

The percentage of alumni fellows actively working on energy and climate issues

FELLOW SPOTLIGHT

DAVID SINGLER - 2016

As an EDF Climate Corps fellow, David created an Energy Report for the Archdiocese of Chicago that baselined current energy use and provided a roadmap for moving forward with future energy efficiency projects. As a Chicago native and alumnus of Chicago Catholic schools, David continues to contribute to the Archdiocese's sustainability efforts being hired as Energy and Sustainability Associate.

JENNY McCOLLOCH - 2011

As an EDF Climate Corps fellow, Jenny identified energy efficiency and waste strategy opportunities for Nestlé Waters North America's corporate headquarters. For the past five years Jenny has contributed to supply chain and restaurant sustainability strategies at McDonald's Corporation, where she is now the Global Director of Sustainability Strategy, Engagement and Business Integration.
