

# Earn a degree in one of the fastest growing occupations in the country.

Operations research analysts are in demand in the marketplace and a **Master's in Operations Research and Supply Chain Management (ORSC)** from Weatherhead School of Management will set you on the path to an exceptional career in the operations and supply chain field.

## Sign up for our fall Open House and:

- Learn about the program's unique combination of business fundamentals, quantitative skills, Six Sigma certification and real-world capstone projects
- Meet our renowned ORSC faculty and staff who support you throughout the program
- Ask questions about admission requirements
- Hear about internship opportunities and employment prospects from the program's dedicated career management staff member

Appropriate for math, business, engineering, economics and computer science graduates.

All attendees will receive a **free application waiver code** (\$100 value)!
